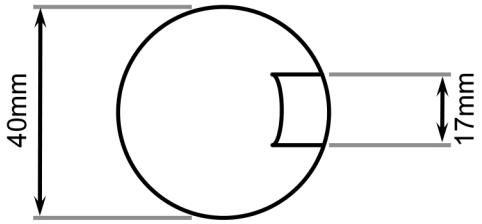
Wanotoobee Mini Fixed Recessed Round One Way Pathlight

Part Number JR09047

Approximate dimensions



The Wanotoobee Mini Standard Recessed Path Light is ideal for residential, commercial or historical spaces, typically used within walls, stonework and in landscaping around pathways.

The fitting material is mainly brass, making it suitable for exterior areas. Its recessed light source leaves only a discreet bezel of 8mm height on the surface.

Positioning is critical to be able to create the desired accent and effect. To keep glare to a minimum, considerate positioning will graze or highlight the subject with its warm light colour, making this a discreet lighting tool.

The bronze surface finish helps this product to disappear into its surroundings. To ensure you get the best effect our lighting designers are on hand to advise.
